

Lawn and tree work ((W. Price Hill) Cincinnati, OH)

Location **Kentucky**
<https://www.genclassifieds.com/x-629799-z>

Looking for someone to do extensive yard and tree work for us. Please email me for address if interested and email with quote after looking at property.

1. clearing the fence line of multiple large bushes and small saplings and killing the roots/removing stumps when possible so they don't return. The row of "matching" bushes on the right side of the fence in the back yard are fine but all others need to be removed.
2. hauling away a large brush pile that contains large bushes and small saplings. We also want to get rid of multiple stumps that these were cut from.
3. removal of vines that are grown in the tree in the front yard
4. cutting off the lower branches of this tree and trimming the tree
5. removing 1 bush that does not match the others in the front yard
6. Trimming other bushes in the front yard extensively and removing any vines. Note that there is poison ivy that needs to be removed as well.
- 7 laying down of mulch in small area and replacing stone pavers (3-5)
