If you have birds, you know how much of a mess they can make. I have this very gently used Hagen Vision Bird Cage that I no longer need and it's yours for \$60 OBO. I paid \$90+ for it. If you want, I can include several parakeet toys and accessories as well.

Also including cage-side back up water bottle. This cage has a clear plastic bottom lip that contains 95% of the feathers and seed mess the birds make. It's the top of the line and if you've got parakeets or similar it offers them plenty of space to stretch their wings.

This cage is the easiest cage I've ever clean for ANY small animal-- bird or other. The entire top detaches and it's very easy to keep it in tip top shape.

The cage also comes with its warranty paperwork, and you can register it as I never did. We've only had the cage for a few weeks and our circumstances changed, and my friend adopted my birds into her aviary.

*The final image I included because it gives a good view of how the system comes together and what the bottom looks like. The cage in that photo, however, is smaller than the cage I am selling.
