This is my first time doing something like this, but we could really use the help of a temporary foster home. We are a small rescue group and are a little overwhelmed with rescues at the moment, which we are currently working on adopting out.

What we are looking for:

A loving animal person who would be able to take a sweet female tabby into their home. This person would be expected to spend some one-on-one time with her each day. She is a very friendly, loving cat that would do best in a stress-free, semi-quiet single-cat household.

Luna was a stray and has been outside on her own her whole life. She is shy around new faces but enjoys being around people once she gets to know them. She is a little skittish around loud noises and small children; she does well in a laid-back environment. Another reason I'm doing this is in hopes Luna will become more socialized, so she has a better chance of being adopted.

Luna is spayed and had all her shots. She has also been given multiple worm and flea treatments. We will provide both wet and dry food, as well as toys. If you think you might be interested and would like to learn more about her, feel free to contact me for pictures or more.
