Aloha

i have been on the island for awhile. have a great life only thing missing is music. i am a female vocalist very basic guitar and piano skills. i just want to jam with some mellow folks and express myself. am happy to just be apart of the creative environment. happy to do covers but also love to create, write and free style. very versatile. like everything from devil makes three, jolie holland, portishead, and Alice in chains. just want to jam. please text or email me
