Big Screen Radio

Boston-based bassist, drummer, and keyboardist mid-20s looking for guitarist (21+ required) to fill out our rock/blues project.

Collectively over the past couple of years, we have played shows in and around the Boston area doing cover tunes and a few originals. Since getting that up and running, we've been looking to add a guitarist familiar with the general rock sound who can add a solid guitar part.

Each of us have experience playing with bands that have recorded and played gigs in and around the city, and really enjoy playing songs that will engage an audience. Our influences include a wide range of rock-type bands from Aerosmith and the Rolling Stones to Stone Temple Pilots and Black Crowes to the Pixies and Pantera. We practice usually at least once per week at a rented practice space in Newton, MA and are essentially ready to gig as soon as we're all up to speed.

- Must be familiar with the various stylings of the rock genre (audio/video samples would be awesome)
- Rent will be minimum per member (between \$10-\$12 per person)
- Singing ability helpful, but not necessary
- Good gear

Overall, just trying to have a good time, record some songs, and play some shows. Feel free to reply via email or phone if you're.
