Have an idea you want to make happen. Health, Wellness & Business Coach from diet and exercise to emotional well-being to getting your ideas off the ground......... sliding scale Life coaching is solution-oriented counseling. It's short term, with a goal. The goal is to figure out "how," whatever the how is. How to launch a business, how to lose weight, how to start an exercise routine, how to make friends, how to find a partner. And it is about understanding what is holding you back from getting to where you want to be.
