Hi,

My name is Karen and I have been a dog walker since 2012. I am an animal lover, and since I have two dogs of my own, I understand that they need exercise and interaction everyday. I will treat your dog like my own. You can expect them to be safe and well taken care of when they are with me. I travel to each home for individual walks so they can get the attention they need. I have clients that like me to take their dogs into their yards and play with them, some that like me to take them to their favorite dog park, or just for a daily walk. Besides the normal lunch time walks, I can do morning, evening, and late night walks. You can tell me what you would like and I will do my best to accommodate. I can also feed them, change the water, or administer medication if needed, at no additional charge. I work in all types of weather and accept all breeds. I also send daily texts or emails to the owners when I am leaving their homes to let them know that everything is okay. Please check out my Facebook page for more information and pictures of the dogs I currently care for. With your permission, I will post pictures of your pets too. You can see what they are doing when they are with me.

You can contact me through Craigslist or Facebook.
