

Concrete slab removal (S Mpls)

Location **Minnesota**
<https://www.genclassifieds.com/x-630245-z>

A concrete block is in the middle of our front yard that I would like removed.

It is approx 3x3 ft, 6 inches thick. Two people can't lift it and we don't have the tools. It would require 3+ people with straps, a bobcat or someone with appropriate tools. Please submit reasonable bid as this is a very quick cash job if you're already in S. Mpls with the right equipment (1 hr max).
