I am looking for someone to do a lot of carpentry and wood work. This includes

- ** Repair and stain the shed
- ** Repair and stain window wood
- ** Repair and stain fascia and soffit
- ** Repair (or replace) and stain outside back door
- ** Fix and nail in window screens
- ** Fix and stain mailboxes

This needs to be done as quickly as possible. So, a team of two or three would be good too.

If you are interested in this project, please email me ASAP with your skills/background, your rate, and how soon you can do this.
