

Male Ball Python with Tank

Location **Mississippi**
<https://www.genclassifieds.com/x-630530-z>

I have to rehome my male ball python due to moving and can't take him with me. His name is Bruce. He is around a year and a half old and a little over 2 and a half ft. He comes with his very large tank between 50-60 gallons with base that has storage compartment, his 2 houses, his heat lamp, and a smaller cage I use for mice. He needs to go to good home serious inquiries
