I have 2 young female pups, both 7 months. Asking 40 each. Both UTD on shots including rabies. House trained. Good with all other animals and kids. I think the chihuahua would do best as a lap dog for an older person though... That's just her personality. TI have 3 kids, the youngest being 7 and she has never bitten or anything like that.... She is just the typical nervous chihuahua. The other is a chiweenie. Much more playful and outgoing. Loves playing with the other dogs. If interested please feel free to either call or text.
