A Group of 12 Vintage P.W. Oswald Pocket Knife Blades-
This group of blades was removed from the old P.W. Oswald Machine Shop in Baker, Oregon, when it was closed a few years ago.
From the 1920's thru the 1950's Oswald and his mentor, Frank Warren were noted for removing the blades from factory knives in order to install their own forgings. We discovered a wide assortment of P.W. Oswald marked blades, that had been forged but never installed. Oswald mainly made stockman patterns, so most would fall into that category.
These blades are unused but heavily stained from age. These are 4 master blades and 8 secondary blades to create 4 stockman pattern pocket knives.
