I am selling a 2008 Yamaha FZ6. It has only 11,030 miles on it.(Which is really low for the year.) It is a really comfortable bike for commuting, and it is really easy to ride making it perfect for a new rider. It doesn't need anything it had tires put on it very recently, and it runs perfectly. It is in excellent condition and is garage kept. It is completely stock except for a smoked Puig windscreen, which is a nice upgrade because it keeps the wind off you at highway speeds making this bike even more comfortable on long rides.

Email me if you want to come see.
