 Day 2: Dola is very nervous in the shelter.
 Day 5: Dola is very timid, and unsure about being in the shelter. She let us leash her and take her out with some coaxing. After a bit of time outside she started to relax a bit. She wants to be trusted... but don't think people have been very kind to her. She needs someone to give her the safety, patience and gentle love. She likes to come out of her shell. ~Megan
 DOLA UPDATE 5/18 ~ Dola is heartworm positive, but tick diseases didn't show on a 4DX snap test. She did excellent on dog introductions with both male and female dogs. Dola would not play with a toy at this time, she really don't know they are for play! She shows no food resource guarding when helper puts food down then removes. She is still a bit nervous, but will come to the gate and wag her tail when she sees people.
 NOTE: Stray from Meadow Creek Old Spring House Rd, Nashville, NC. No obvious aggression shown to other dogs in the kennels nor undue interest in the cats.
