I have 6 puppies looking for new homes.4 females and two males. Mom was German Shepard lab mix and dad is blue nose Pitt. They are 6 weeks old and completely weaned. They are puppy pad trained for the most part. Mom passed away so I have been taking care of them since then. They will give their first round of deworming before they leave. They do NOT have first set of shots and I will not be giving them. They are NOT FREE. TEXT.
