

## 36Tall Wire Exercise Pen for small to medium dogsother animals

Location **Idaho**  
<https://www.genclassifieds.com/x-631032-z>

This is excellent for containing small-medium dogs in the house or outside, when you don't have a fenced yard. It is also a great alternative to a crate when used in the house, giving your dog a larger enclosed area in the house while you are away, yet not making him feel as confined as he would in a crate.

It is new, folds accordion style flat, has 8 panels each measuring 24"L X 36"T.... It comes with 8 ground stakes to hold it securely outside.

This size has 4 clips (like those found on the end of a leash) to attach the end panels together/closed when set up. It can be set up in a few different configurations (square, rectangular, circle, octagon).....it has a door for you pet to use, with double latches, and since this door is meant for the pet to go through, you can open the panels where they are clipped together to walk in if necessary..... (see pics)

This is excellent for small to medium sized dogs, cats, puppies, & other small animals....

Asking \$60 (I have a couple less expensive ones of smaller heights of the same pen in separate listings: they are identical to this, only the height is different: 24" Tall for \$50, and a 30"Tall for \$55)

Call Debbie at 939-2036....phone calls only. I am located off of Hwy 55, approx. 4 miles north of State St.
