

Missing black kitty (Columbia Village)

Location **Idaho**
<https://www.genclassifieds.com/x-631035-z>

My sweet black kitty has been missing since July 21.

Kitty is 12 years old and has medium-long black fur and a long fuzzy tail. (Body fur was shaved in May, so it may only be partially grown out.)

He was wearing a red collar with a bell and magnet attached. He has no identification on his collar, but he is microchipped.

Kitty is a very cautious indoor/outdoor cat. He can be very friendly, especially to some women. If you think you see him in your area, please call me ASAP.
