

Offering Web Design Service (St Louis (South))

Location

Missouri

<https://www.genclassifieds.com/x-631115-z>

I am offering affordable basic web design services for any web design needs (This does not include site hosting, you will need to get that yourself or I can assist you in doing this). I can offer one time design (different structures for if we will update down the line, or if you would update), occasional maintenance, constant maintenance. I can even work on designs you already have and update them too.

I have an Associate of Arts in Information Technology/Web Design.

Also offering basic graphic ads (for advertising, promotional, or other needs).

All prices negotiable. Do not hesitate to ask, no job to small or too big to consider. Even the smallest job for say, a family webpage, I will work out something reasonable for you too. Contact me today!!! :) Will show samples of work when you contact me. Check out our the website to see samples of the Web Design work, or Graphic Ad work. Services are filling up fast. Contact us for a quote!!
