I have 14 Years' experience in a shop doing body and paintwork. Body shop quality at a fraction of the body shop price. In most cases cheaper than your deductible or way less than the amount the insurance company gives you to fix it.

Dents, dings, scratches, scuffs, painting, pin striping buffing and touching-up. Call me so I can get your free estimate today.

I am not set up to do all over paint jobs. I work full time and do body work on the side. Most cases only be with out your car for two days or less. The best way to reach me is by text or phone. I hardly check my emails.

Thanks,
