Hi, I am looking for a 2-3 bedroom home to rent in Poland. I would like to keep my son in the same school that he has grown up in. Occupants would be 2 adults, 1 child, and a four legged house broken family member (dog- hound/spaniel mix). We are interested in renting a house but may consider a mobile or an apartment. We are quiet, clean, and respectful tenants. We are handy and may also be able to fix things up as a trade off from some of the rent. Might consider a lease to own as well. We have references and stable income. We are looking for a price MAX of \$900-\$1000/monthly if we need to heat it. If you have anything you think might interest us please email! :) I will ignore all messages that appear to be.
