Never have your phone or gps die en route to your event again!

Bought this on newegg 9 months ago, works great, but I have another that I like more and it reminds me of my ex, so I am liquidating it. Currently on newegg for \$45, I'm asking \$15.

Battery life is as advertised, but my stupid ex boyfriend put nail polish on the back to delineate the 2.1 amp and 1.0 amp. That's literally the only flaw.

Features:

-Enjoy 26 hours Movie time for iPhone 4S 4, 3G 3Gs iPhone and 11 hours movie time for the new iPad, iPad2, and iPad

-Huge Capacity 6000mAh, Dual-port to charge 2 devices at the same time. About 3 times of iPhone 4 battery life and 50% of iPad2 iPad1 battery life

-No AC charger and iPhone/ipad adapters is included, but IMP60D is compatible with all original Apple cables and AC chargers.

-Works with iPad2 iPad/iPhone 4S 4 3G 3Gs 2G iTouch and all generations iPod classic. Also works with Samsung Galaxy Tab, Nintendo DS, Sony PSP and much more
