A used marble, tic, tac, toe. Has a round blemish/spot on top, and one of the round, metal insert game pieces on top, the shaft is a bit loose, from the round doughnut shaped piece.  
Some of the coating on the game pieces that go into the hole, has been rubbed off, and are tarnished, a bit.  
Looks like there is a signature on the bottom corner, of C C Jerel 71  
  
Any questions, or doubts, just.
