

looking for tree and stump removal (Bethlehem, NH)

New Hampshire Location https://www.genclassifieds.com/x-631461-z

I am looking for someone to help me finish clearing my land. I have dropped a bunch of trees and they are piled on the land. There still is about a dozen trees that need to be dropped. I would also like a roughed in driveway, which is already cleared just needs to be stumped and smoothed. I was originally planning on renting a excavator and removing the trees/stumps myself but if someone could provide me with the right quote, I would give them the job. Pics show you how far I currently am on the project. Contact Jamie for location and.
