I'm a producer/ songwriter of pop and RnB music. Have worked with artists currently signed to Def Jam, as well as universal. My schedule has just opened up and I am able to work with one new artist on a single. I charge \$400 a track and that includes making the beat, playing guitar / piano, cowriting, mixing and mastering. I take 50% ownership of the song and will pitch the song to several licensing opportunities. Call me at any.
