hello,

we have 2 male guinea pigs that need a great home. the girls got them for xmas last year but they are so busy that they just don't have time for them. they must go together and to a family that will take care of them and not kill them by being rough with them. there is a cage, food what ever is left when pick up, hay, bedding if any at the time pick up, and anything else they have goes with them. there names are guinee and jumpers. even tho the girls don't have time with them they love them very much and it's hurts them they are having to give them away. so we will be kind of picky who we give them too. so with everything I mentioned they are 70.00 so if you are interested please text us at thanks for your.
