I have for sale a 1988 Mallard Flight Leader 33' 5th wheel camper. For 27 years old, this camper is in great shape! The good: Newer microwave, newer fridge, laminate flooring in the kitchen area, moveable dining table with two chairs, no water line leaks, very minimal water damage in kitchen area (what you'd see in campers half its age), plenty of external storage and a beautiful awning and you will not find wood working like this in many new age campers. The bad: Furnace has not worked since I've had it, and haven't looked into fixing because electricity was included on our permanent lot so we ran space heaters. Hot water heat has not been used for two seasons but worked well last time used. A/C seemed like it struggled to keep up on extremely hot days. Any questions don't hesitate to give me a call or to shoot me an offer. Not really interested in keeping it another winter. Thanks for!
