The Fathers' Rights Movement

Please help. We are a national movement trying to change the laws on the way the family courts handle child custody. We are dads that strive for shared parenting. We are dads that miss our kids and want to be much more involved in their lives. We have seen systematic removal of dads from their children's lives, even though these men want nothing more than to spend as much time with their kids as possible. Time is love, and when dad isn't around, both dad and kids suffer. If you or anyone you know would like to get involved with, or simply support our movement, please click on the link below and like our page. Through awareness and action, we can bring the much needed and overdue change to family courts.
