Im a local Cleveland area photographer that specializes mostly in Weddings and City Landscapes.

Im looking to branch out into Real Estate photography, I believe it would be a nice relaxed side business to do to fill up weekday free-time I have. I will fully edit and tweak each image you receive and can do Same Day or Next Day shoots if needed and have images the next day for you.

I use all professional Nikon gear and can take the wide sharp detailed images you need as much as zoomed in detail to architecture.

Services cost would only be \$150 for up to 1500sq feet and \$200 for anything larger (any size)
 I would look forward to doing larger Homes or Condo's

This is a condo I did a few months ago. Check out in full screen for sharpness.
