I've been writing a song every day for 51 days. It's been a fun and interesting project. Here is my song from yesterday which I think is my best yet. Check it out and let me know what you think.

I think my plan as of now is to go until I hit 100 days and then pick the best ones to record an album. After that I could start all over with another batch of 100. Not totally sure yet. Hope you.
