I have approximately 220-ft of 4-ft chain link fence to be painted. It is a level run and all the fence line is clear of branches and other vegetation. There are 3 pedestrian gates and 1 double panel auto gate included in the run. This project includes pressure washing, sanding, painting and clean up.

You MUST have experience with chain link painting because painting chain link is different than regular fence painting.

The paint will be supplied by me. All labor and miscellaneous items are to be provided by you.

I am a professional handyman. I need you to be presentable and reliable; be willing to work conscientiously. It is likely that you will need to provide at least a 2 man crew to get the job done in a timely manner.

The job is located in Vancouver and could start as soon as this week. Compensation to be agreed upon prior to beginning work.
