The news has just been straight shit lately.
So we asked ourselves, how do we fix this?
And we decided to make it worse. . .

Introducing The Daily Fucking News, the epicenter of sarcasm and the new standard for excellence in media and journalism. We're looking for some funny-ass people to write sarcastic headlines and short satirical articles. Doesn't that sound like a shitload of fun?

We're just a few guys that love comedy & satirical news (huge fans of The Daily Show and The Onion) and thought it could be fun to give it a shot ourselves. But even better, open it up and let anyone contribute.

DFN is a brand new endeavor getting a humble start. So this is not a paid opportunity, and we're doing it just for the fun of writing good shit. But you can link back to your own blog/website/personal project in your writer bio if you'd like, and hopefully we can all get some awesome portfolio material and a great experience out of it!

If you're at all interested, send us an!
