To Whom It May Concern

I am very concerned with what's going on with our government. I was a very successful XXXXXX XXXXXXXXXXXXX, up until three heat strokes like to have killed me by 2000. But, I learned something about XXXXX that no one else had. I wasn't just an XXX. I was dedicated to make a difference, and. With 25 years of XXXXXXXXXXXXXXX behind me, I thought I could save myself. What a joke, thinking you can depend on people that makes money, by making criminals.

In 20XX, I set up a new company called, XXXXXXXXX . We had a new product engineered, and ready to sell. The only problem was, we tried to sell it to the Department of Education to XXXXX our children. They ignored our expertise, and after a year of trying to make a sale, we had to close.

As soon as we did. They took our product, redesigned it not to work, then they padded their own pockets, and patted themselves on the back doing it. Ask them why they put strobes on the school buses, and they'll tell you fog lights. LIARS! After the heat strokes and failure to make a sell. I was left in the streets for almost fifteen years.

Realizing I was never to recover from the strokes, I contacted an attorney to help file a disability claim. After over a year of dealing with them. Their final report said, I was too young. There is something as crooked as a dogs hind leg going on here! And it all started with a corrupt system. Now, I haven't had a drivers license in years, many, many years. Maybe it would just be easier to kill me. Isn't that what you do with people who are disabled and [illegible]?

Last night, I showered at my brothers house, and was asked to drive to his son's apartment, because he was working 16 hours shifts. By the time I left, I didn't realize that his tag was expired. I was pulled over by highway patrol for the tag. Now the sheriff is just looking to steal my car, and take me to jail for that ticket. And it all stems from theft and corruption, by and from our government.

I am going to ask that you clear these fines, and immediately have my licenses, XXXX and drivers licenses restored and reinstated in full, with out penalty. If I hadn't of been robbed by the system, I would have taken care of my bills, but now. The government needs to pay its debts. I was 40 when this happened, and now I'm 54 years old. Death for me, would be better than going back to the streets.

How many times do you have to kick a good man, till you make criminals out of them? This is one time to many. I spent my whole life protecting the same people that robbed me, my businesses, and our partners. Do you know how humiliating that is? Destroyed!

Do you know how many times I wanted to knock on doors, telling parents how the department of education intentionally put their children in danger, and padded their own pockets doing it! This is you're wake up call. Just because someone has a tail light out, doesn't make them a criminal!

If I fail to get results in the next 30 days, you'll leave me no choice. I think people online would love to know how the government destroyed a good man, and got away with it. We both know, it's not the first time they've done it.

I never know where I'm going to be from day to day, so please. Contact me via email if you intend to do the right thing. If there is no response. I'll take that as eat sh** and die
