Construction Company looking to hire rough carpenter foreman for residential and light commercial construction. You must have experience in residential framing. We are looking for leaders who want to take charge, and who can handle responsibility. We understand that rough framing is a tough job and hard on the body .This is a very fast pace environment. Its hard to find quality people who want to work and who can do good work. That's why we offer top pay. Work load is always heavy so you don't have to be worried of being off. If you think you fit what we have mentioned here then you may be a qualified candidate. Only looking for serious.
