AKC NEWFOUNDLAND pups. I had a litter of 3 males and 6 female pups born 2/1/15. They are 6 months old and have shots and worming up to date. In the first eight pictures they were 9 weeks old. In the next five pictures they were 16 weeks old and in the rest of the pictures they are 6 months old and I have trimmed their hair short for summer. Their full coats will grow back out by November. The pups presently weigh approximately 60 to 70 lbs. I had to suspend my previous ad because of the four months of continuous rain and flooding we had here in Texas so that is why I still have 5 of the pups from this litter. I have one solid black male, 1 solid black female, 2 black and white Landseer females, and one solid bronze female. I own the parents to these pups and they are on site. The Sire weighs 170 lbs and the Dam weighs 130 lbs. The last two pictures are of the Sire and Dam. These are big and beautiful Newfoundlands that are above AKC standard size. I give all new owners a health guarantee for 3 business days to get the pups vet checked by the vets of your own choosing for any life threatening hereditary or genetic illness. This is not a lifetime coverage. Serious inquiries only. Viewing my pups is by specified prearranged appointment only at my discretion. Serious inquiries contact me by phone. No texting because it is a landline number. The rehoming fee will be paid in cash only. I do not ship pups so it is local pick up only. I am located at Clarksville, TX which is 1.5 hour north east of Dallas. Please leave a message on my voice mail if I'm not available and I will return your call the same day. Thank
