

# 1 12 year old female bearded dragon setup 150 (United States)

Location **Vermont**  
<https://www.genclassifieds.com/x-632197-z>

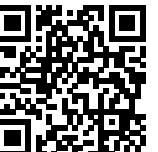

Rehoming bearded dragon, her name is bill, because I initially thought she was a he oh well the name stuck. She's roughly a year and 6 months old. Big but not yet full grown. She is healthy and is 18 inches long. The reason I've decided to rehome her is because I've realized that going into my senior year of college, work may require me to move around a lot leaving me unable to tend for her.

She is very friendly, very healthy, and very calm I've had her since she was 6 months old. She doesn't go outdoors much but will be happy to rest on your shoulder as you go about your day.

She will come with her whole set up ready to go. Her set up is currently a 55 gallon tank which tiles all laid as the substrate. I'll even include the wood stand that it is on. Her UV bulb is new, her Heat bulb is new. Literally ready to go and be loved.

I currently feed her veggies primarily green beans as her staple with some carrots. In terms of "meat" she gets dubia roaches that I've raised myself.

The rehoming fee will be 150 for Bill and her setup and the roach colony.  
 Feel free to email me with any questions or if you'd like to see more images, thank!
