 I'm looking to trade the stuff below for gaming consoles.

 Dell R610/Recoverpoint server, Dell Latitude 10e ST2E, Dell 8600 Laptop and Docking station, Dell Optiplex 280, 19" Flat Panel Acer Monitor, HP Laserjet 3200 with a JetDirect 170X, Netgear NASDuo, Linksys NAS200 with original box, a Slingbox Solo, Phillips 32" HDTV CRT (Model 32PT830H37A), Multiple sets of computer speakers, and a Kodak CX7300 digital Camera.
 The Server has 2 E5504 2 Ghz quad core processors, 48 GB Ram, and 6 146GB 15k hard drives (I also have 2 additional spares for a total of 8 drives; the server only holds 6) . It also has 8 nics (4 on-board and 4 on add in card) and 4 fibre connections (Qlogic QLE2564 8Gb).
 The tablet has a Atom 1.8Ghz, 2 Gig Ram, 32 GB Hard drive, and a Targus Case with bluetooth Keyboard, Currently running Windows 8.1 Pro.
 The Laptop is a Pentium M 1.6 GHz, 2 Gigs Ram, 40 Gig hard drive, and ATI graphics card, currently running XP.
 The computer is 3.2 GHz, 4Gigs Ram, (2) 80 Gig hard drives and wireless adapter currently running XP.
.
 The Netgear NAS has a 500 Gig Hard Drive and space to add a second drive or you can upgrade to larger drives.
 The Linksys NAS200 does not have any.
