

Help keep him busy (ASE certified auto repair) small engines also (Spanaway)

Location **Washington**
<https://www.genclassifieds.com/x-632465-z>

My husband needs to be busy in the evenings! He's happiest when he's in the garage fixing a car (or a lawn mower or a motorcycle...or anything really!) and we're running out of things for him to fix! He is a ASE certified mechanic and he can do just about anything, to any car. He's a knowledgeable (personable!) and honest man who is extremely good at what he does.

Tuneups, general services, brakes, suspension, engine repair - really, anything goes!

He'll give you a free and fair estimate, and references are available if necessary.

Feel free to email, but it's usually best to call him with your questions.
