INVESTORS WANTED (TN.)

INVESTORS WANTED (TN.)

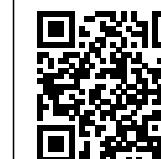

Licensed general contractors seeking investors. We do residential projects. We currently have a custom project in east Nashville under contract, breaking ground this week on 15 ac. 10 min to downtown Nashville with properties still available. We also have a \$200,000 remodel job under way in North Nashville coming to an end. We have a home in Inglewood on property that can be subdivided into two homes with 50,000 in equity already established. We are seeking investors who wish to invest or already own in the east Nashville area that is currently booming. There are many great opportunities for buying one house, tearing it down and building two on the same lot. Between us we like to do most of the work ourselves with a couple of employees this brings our costs down and our profit up. Our references include real estate agents, brokers, investors, past customers. We can get you between 10 to 15 percent return and we will do all the leg work as we have several close real estate agents that we work with. If you are looking to get into the real-estate boom then contact us and let us help you with some great investment opportunities. Building relationships with Every Project We Touch.
