Location

**Texas**<https://www.genclassifieds.com/x-632672-z>

Never pay for TV or movies AGAIN! This media center powered by the Quad Core Raspberry Pi 2 and Kodi media streaming software will allow you to stream movies, TV shows, TV channels, sports, EVEN PAY PER VIEW EVENTS, EVERYTHING for FREE! This unit comes pre-installed with Kodi and all the best add ons so you can instantly browse, search and play media from a huge selection of online streaming sources, all displayed in up to 1080p and 7.1 surround sound.

This video will show you exactly how the Kodi Free Media Center works. All of these addons shown in this video (and more) are included in my systems. Check out the literally endless selection of movies, TV shows, channels, etc.

My competitors will try and sell you the Raspberry Pi by itself and expect you to find the rest to get it working, buy from me and I'll include EVERYTHING you'll need to get started streaming FOR LESS!!!

Check it out!

#### KIT INCLUDES:

Raspberry Pi 2 pre-programmed with Kodi and all the best add-ons

Custom manual to ease setup and answer most questions

8GB 80 microSD card

100 MHz WiFi adapter

Power adapter black

Power adapter white

5V 2.5A power supply (regular micro

USB's are not enough)

OPTIONAL -- 2.4GHz wireless remote/keyboard/mouse combo (white or black) - \$20

this works out of the box and make browsing a breeze, but you can still just use your
