You will be very impressed by this van as well as the rest of our "Cherry picked" selection of over 50 Commercial Cargo Vans... Look them over carefully, regardless of miles ... these vans are the **CLEANEST ANYWHERE**, physically & mechanically !

Â Our "No Haggle Price" is \$13,995

Many people ask us, "Where do you get all of these beautiful cargo vans?" It's true. . . they are not your average everyday run of the mill personal owned and abused used cargo vans. I mean, these vans do have between 100K and 200K miles on them, but they sure don't "look or act like it". The answer is very simple; We get all of our cargo vans from very well maintained commercial fleets, mainly telephone companies. We prefer telephone company vans. First off, it is a very light duty application and the vans are not subject to hauling heavy loads. . . Everything is kept in bins, so minimal wear to the body of the van. The people driving the vans are employees, held to a certain "high" standard and expectation. So, you'll notice the seats aren't all torn up, they haven't been smoked in and I can tell you this, the second one of these vans needed an inkling of service, it was tended to. That's why we are very confident that the vans we are selling will represent your business well & give you no to minimal issues along the way. . . We have the highest quality selection of Cargo Vans in the Valley... We have created a program that allows folks in all credit situations to get the work vans they need to become entrepreneurs or enhance their existing businesses...
