My partner and I are looking for a reliable and trustworthy person to do some really quick and easy house cleaning jobs three days a week. We are looking for Monday, Wednesday and Friday for one hour a day. Cleaning would be anywhere from 7:30am to 3:00 pm. This is perfect for someone who has time in their day and is just looking for a little extra cash at the end of the week. The cleaning tasks would be the dishes, wiping the counters, and sweeping the kitchen floor, once the kitchen has been done wiping the sink in the bathroom and sweeping that floor. Tasks may change between the days of the week but should all take an hour or less.

We would like to meet you in person before starting the job to make sure it would be the right fit and we require three.
