Hello I am traveling to southern Oregon Roseburg, to be with my daughter who has a brain aneurism from a blood clot in her leg and a hole in her heart, she is pregnant with third baby and refused to have abortion knowing that it may cost her own life, so she wants me to be with her for the birth again, she is 30 weeks along and struggling homeless living in a tent which is different but not too bad this time of year, but I have to do something to help. I am asking for some help to get there, so if you have family you wish to visit there ride with me and share the cost of fuel please. I cannot afford it alone. Please. I am REAL and this is a true story thanks for reading, please don't
