Bass, Drums and guitar. We've been together for years and have undergone a personnel change. We'd love to back you up or find a singer. We all have extensive repertoires, love everything from The Temptations to Bruno Mars, and if you give us a set list we will have it down for you by the end of the week. We are professional in our business, art and musicianship. We like to show up a little early to get set up and have time to relax a few before we start. Here's a link to what we sound like. There are many videos to watch. <https://www.facebook.com/thesmokeyblues> our place or.
