

auto mechanic (Bentonville)

Location

Arkansas

<https://www.genclassifieds.com/x-633197-z>

Certified mechanic will work on any year, make, and model vehicle. big or small vehicle. I will beat any competitors labor rates guaranteed. labor rates start at 25 an hour plus parts depending on the job. will charge more for labor depending on the job. if you cant afford it all up front no problem will take low payments or trade or something. we will work something out. I also do 24/7 roadside assistance. And i will come to you to work on your car. I charge 10 dollars if i come to you Depending on where you are located. I can pretty much do anything that you need done. if I don't no what the problem is then I WILL NOT bs you and fix what I think is wrong. I will tell you straight up that I don't know what is wrong. then all you have to do is take it to a shop and see what they tell you is wrong with it and I will fix it at a discount since I couldn't tell you what was wrong with it. I can also do complete restorations and motorcycles or pretty much anything with a motor. you can call or text at

thank you for looking. I hope I can get your business soon. thank.
