

# Math, Reading, English tutor for 4th grade student twiceweek (mountain view)

Location **California**  
<https://www.genclassifieds.com/x-633346-z>

Hello,  
Our beloved tutor is moving on to the out of state college this year, so I'm looking for someone to take over and help my 9 year old daughter (4th grade) with math, reading and writing. May be some science. Teaching credentials and college degree are unnecessary, I'm simply looking for someone who can come informally to our house twice/ per week approximately 5PM to 6PM for about an hour (a long-term commitment is preferred) and help her out.

We live near Whisman Park in Mountain View.

This is ideal for someone who might still be in high school or enrolled in a local college.

Please note that we have a dog (friendly German Shepherd) and a cat, so if you have pet allergies, probably this project is not for you. If that does not scare you, please write me an email and we'll go from there.

\$20 to \$25/hour, depending on.
