I am a quiet respectful mature professional female who is kind, honest and spiritually oriented. I have renter's insurance, a recent background check and great references. I love pets, children, nature, Marin, etc. I am involved with consulting, marketing online and writing a book. Most of my time is spent working on my computer, quietly from home in my own space. I will respect your privacy, pay rent on time and keep common areas clean and tidy. Sometimes I travel for months at a time. I'm flexible and spontaneous. If you travel and need help with your house, pet(s) garden, etc., I can help. I'm especially good as a pet companion while you're away. I'm open to move in date.
