

Room for rent needed withwithout private bath (fremont union city newark)

Location **California**
<https://www.genclassifieds.com/x-633394-z>

Hello,

First of all, I didn't include a set price b/c I am open to rent amount. Don't want to restrict you and myself

I am a young working professional working as an Engineer in the tech industry in San Jose. Reason I am looking for a room is b/c I currently commute for 2 hrs each way in traffic everyday to work, so is taking a toll on me and the car.

I am male, but please do consider even if looking for female only because I know my limits and keep the space/distance.

Area of search: Fremont, Milpitas, North San Jose, Sunnyvale, Santa Clara (You might see this posting in these cities on craigslist b/c that is where I am looking at to rent a room)

Room type: Single private room with, or without private bathroom (preferably with private bath b/c I like to keep clean). Room can be in a house, townhome, condo, or apartment. No park homes and/or mobile homes please.

Looking for/things to know:

- No smoking at all, no drugs, minimal, relaxing drinking is ok. I won't be hosting any parties
- Will rarely have guests (will ask in advance if overnight is ok)
- Light cooking (making tea/coffee, sandwich, quick pasta, noodles, etc.) Won't use your dishes or pots or any kitchen equipment. Won't be cooking everyday. Few days out of the week.

-I am a vegetarian but don't mind others around me eating whatever. b/c is a personal choice.

Maturity, cleanliness, rules, respect and responsibility are must. I do not have any tolerance of human beings who don't follow these things.

-I don't discriminate against race, gender, color, sexual preference, etc. I am I to respect everyone.

-Don't mind sharing my home with professional, student, or tenants only.

I'll provide my name, phone number, and where I work in your email reply. I'm sure you have your questions. I didn't wanna make this post any longer so withheld some info. So please do contact.

NOTE: Please include the word Test or Robot in the email subject line and/or the body of email so I know it is not a spam/robot email. Thank you.

Thank you for your time reading this post and look forward to hearing from!
