67 Ranchero project or for a parts. It has a 289 and C4 auto trans, the engine will turn over and fire. The body is rough but has a fair amount of good parts; fenders, hood, doors, all the glass is good. Has most of the exterior trim in a box. Interior is rough but most of it is in a box also. Alot of the parts are in good shape if you wanted to use it for parts car or restore. Asking \$900 or best offer. I'm starting to dismantle it so it can go to the scrap.
