

Looking For Local Artists and Musicians (Northwest Arkansas)

Location **Arkansas**
<https://www.genclassifieds.com/x-633568-z>

We are a new business starting up here in Northwest Arkansas. A big part of what we want to do in the area is to showcase all the amazing talent that NWA has to offer. We will be starting up as a T-shirt company focusing on different themes around the area and promoting community involvement by hosting events and parties featuring local bands.

We currently would like to meet with local artists and musicians. The artists to help design shirts and the musicians to set up music for our promotional videos, and grand opening events.

If you are interested in helping to promote the local culture of NWA, send us your contact info, portfolio, soundcloud links or anything else to give us a good idea of who you are and what you do.

We will also be working on putting together a NWA sampler album to be distributed through our company to raise awareness and excitement for local music.

We would like to have a group meeting or two within the next month so we can have a big launch and get the ball rolling around the same time that school is starting back.

Pay for this will depend on experience and your current reputation. We would prefer people mainly looking for portfolio or experience building but anyone is welcome to apply and give us a quote for your work and, our budget allowing, we will try and work something.
