Hello, I am a 22 year old mom. I would love to find a child or family to care for during weekdays in my home. I have a nine month old daughter who would love friends to play with as well. I have many years of experience baby-sitting, and I also work at a gymnastics center where I get to play with and help children learn. (I currently work in the evenings, but would love to be able to quit my job if I can find the right family) I am extremely patient, kind, and attentive.(plenty of references available) I am big on educational activities, and hands on fun. I live in an apartment (smoke-free and pet-free), but the community is very quiet, safe and has a nice enclosed playground. My hours and pay are flexible within reason. Feel free to e-mail or text me with any further questions.!
